
ARMAN GHAZIASKARI

Senior GIS Specialist | Data Scientist | Spatial Project Manager

GIS & Data Science Specialist with 20+ years of experience in geospatial analysis, remote sensing, and data-driven solutions for urban and territorial planning.
Proven experience leading and coordinating GIS projects end-to-end for public sector organizations, including team management, stakeholder communication, and delivery of geospatial systems.
Strong background in spatial data standardization, infrastructure design, and multi-source integration to support evidence-based decision-making.
Skilled in Python-based workflows, ETL automation, and dashboard development. Currently leveraging Big Data and cloud-based technologies to build more scalable and efficient geospatial solutions.

SKILLS

Project Management & Coordination:

Project Planning & Delivery, Stakeholder Management, Team Coordination (Multidisciplinary teams), Requirements Analysis, Data Standardization & Governance

GIS & Geospatial Technologies: ARCGIS, QGIS, SPATIAL ANALYSIS & REMOTE SENSING, GEOSPATIAL DATA MODELING, GEE, EOPANDAS

Data & Programming: Python (Pandas, NumPy), ETL Processes & Data Pipelines, SQL & Data Integration, Data Visualization (Power BI, Streamlit)

Tools & Technologies: Git, Docker , Jira, Notion (familiarity)

Additional Knowledge: Big Data Concepts (Spark, Kafka, Hadoop – basic knowledge), JavaScript / React (basic)

LANGUAGES

Spanish (B2)
English (B2)
Persian (Native)

EXPERIENCIA LABORAL

Freelancer
2021 – Present | Remote

- Developed geospatial solutions using GIS, remote sensing, and Python-based tools.
- Built interactive dashboards (Power BI, Streamlit) to support data-driven decision-making.
- Applied data standardization practices to ensure consistency and quality across multiple data sources.
- Explored data science and machine learning techniques in applied and research-oriented projects.

GIS Specialist and Manager
2004 – 2021 | General Governor Office of Isfahan Province, National Divisions Group, Iran

- Led and managed GIS projects for territorial planning and crisis response at provincial level.
- Coordinated multidisciplinary teams (technical experts, analysts, stakeholders) ensuring alignment with project objectives, timelines, and deliverables.
- Defined and implemented data standards and protocols for the integration and use of geospatial data across departments.
- Contributed to the establishment of a provincial spatial data clearinghouse to improve data sharing and standardization.
- Oversaw spatial data infrastructure, including database design, data governance, and quality control.
- Prepared technical documentation, methodologies, and project proposals aligned with administrative and regulatory requirements.
- Reviewed RFP/RFQ documentation and ensured compliance with technical standards and project specifications.

Contributor to digitization
2013 | Brown University (Spatial Structures in the Social Sciences),USA.

- Digitization of historical census maps (1890–1930) of major U.S. cities using GIS tools.

ACADEMIC EDUCATION

- **2000 – 2004**: MSc in Geographic Information Systems (GIS) and Remote Sensing Shahid Beheshti University, Tehran, Iran
- **1996 – 2000**: BSc in Environmental Engineering (Field and Watershed Management) Isfahan University of Technology, Isfahan, Iran

ADDITIONAL TRAINING

- **2026**. Big Data Specialist, 230 hours, Alfa formacion , Bilbao
- **2025**, Artificial Intelligence Specialist, 230 hours, EDE Fundazioa,
- **2025**. Front-End Web Development Bootcamp, 200 hours, BBK Bootcamp & The Bridge.Digital Talent, Bilbao.
- **2024 – 2025**, Data Science Bootcamp, 480 hours, BBK Bootcamp & The Bridge.Digital Talent, Bilbao.
