

ARMAN GHAZIASKARI

GIS Specialist | Data Scientist | Spatial Project Manager

EXPERIENCIA LABORAL

Freelancer

2021 – Present | Remote

- Developed geospatial solutions using GIS, remote sensing, and Python-based tools.
- Built interactive dashboards (Power BI, Streamlit) to support data-driven decision-making.
- Explored data science and machine learning techniques in applied and research-oriented projects.

GIS Specialist and Manager

2004 – 2021 | General Governor Office of Isfahan Province, National Divisions Group, Iran

- Led and managed GIS projects for territorial planning and crisis response at provincial level.
- Coordinated multidisciplinary teams (technical experts, analysts, stakeholders) ensuring alignment with project objectives, timelines, and deliverables.
- Defined and implemented data standards and protocols for the integration and use of geospatial data across departments.
- Contributed to the establishment of a provincial spatial data clearinghouse to improve data sharing and standardization.
- Oversaw spatial data infrastructure, including database design, data governance, and quality control.
- Supervised the spatial data infrastructure, including data base design, data governance and quality control.
- Prepared technical documentation, methodologies, and project proposals aligned with administrative and regulatory requirements.
- Reviewed RFP/RFQ documentation and ensured compliance with technical standards and project specifications.

Contributor to digitization

2013 | Brown University (Spatial Structures in the Social Sciences), USA.

- Digitization of historical census maps (1890–1930) of major U.S. cities using GIS tools.

ACADEMIC EDUCATION

- **2000 – 2004:** MSc in Geographic Information Systems (GIS) and Remote Sensing Shahid Beheshti University, Tehran, Iran
- **1996 – 2000:** BSc in Environmental Engineering (Field and Watershed Management) Isfahan University of Technology, Isfahan, Iran

ADDITIONAL TRAINING

- **2026.** LABORLAN 2026: AI&Data Tech: Artificial Intelligence and Technological Project Management (325h), GAIA, Bilbao
- **2026.** Big Data Specialist, 230 hours, Alfa formacion , Bilbao
- **2025.** Artificial Intelligence Specialist, 230 hours, EDE Fundazioa,
- **2025.** Front-End Web Development Bootcamp, 200 hours, BBK Bootcamp & The Bridge.Digital Talent, Bilbao.
- **2024 – 2025,** Data Science Bootcamp, 480 hours, BBK Bootcamp & The Bridge.Digital Talent, Bilbao.

GIS & Data Science Specialist with 20+ years of experience in geospatial analysis, remote sensing, and data-driven solutions for urban and territorial planning.

Proven experience leading and coordinating GIS projects end-to-end for public sector organizations, including team management, stakeholder communication, and delivery of geospatial systems. Strong background in spatial data standardization, infrastructure design, and multi-source integration to support evidence-based decision-making.

Skilled in Python-based workflows, ETL automation, and dashboard development. Currently leveraging Big Data and cloud-based technologies to build more scalable and efficient geospatial solutions.

📍 48014, Bilbao

SKILLS

Project Management & Coordination:

Project Planning & Delivery, Stakeholder Management, Team Coordination (Multidisciplinary teams), Requirements Analysis, Data Standardization & Governance

GIS & Geospatial Technologies: ARCGIS, QGIS, SPATIAL ANALYSIS & REMOTE SENSING, GEOSPATIAL DATA MODELING, ArcGIS Enterprise, Web AppBuilder, GEE, EOPANDAS

Data & Programming: Python (Pandas, NumPy), ETL Processes & Data Pipelines, SQL & Data Integration, Data Visualization (Power BI)

Tools & Technologies: Git, Docker , Jira, Notion (familiarity)

Additional Knowledge: Big Data Concepts (Spark, Kafka, Hadoop – basic knowledge), JavaScript / React (basic)

LANGUAGES

Spanish (B2)

English (B2)

Persian (Native)
